

# The new TUCSON N Line.

Drive a statement.

You're used to making a statement. Now you can drive one. Take your Tucson to the next level with eye-catching design elements taken directly from the high performance N series. After the successful launch of the highly acclaimed i30 N and i30 Fastback N, Hyundai's N Division is continuing its shake-up of the performance car world with the new N Line. Next to a wide range of exclusive design features, the new Tucson N Line also offers a sportier driving feeling thanks to a specially tuned suspension and power steering setup. The attention-grabbing 19" alloy wheels and Michelin PS4 performance tyres really fill the wheelhouse, creating a more dynamic stance and delivering fantastic road handling.

# The confidence of powerful details.

Equipped with a wide range of exclusive design features, the Tucson N Line exudes sporty performance flair.

The aggressively reimagined front bumper is crowned by a unique N Line version of Hyundai's Cascading Grille and boomerang-shaped LED Daytime Running Lights.

The N Line emblem sets the Tucson N Line apart from the crowd. 19" black alloy wheels with Michelin PS4 level performance tyres.

The aerodynamic black rear spoiler features a shark fin antenna. New twin oval chrome tailpipe tips enhance the motorsport flair.

## Upgrade your comfort zone.

Welcome to a whole new level of sportiness. Sit down in the Tucson N Line's upgraded cockpit and you'll feel its motor sport roots instantly. The uniquely designed N Line sport seats keep you in control and comfortable with power lumbar support and luxurious suede and leather materials. They feature the N logo and red contrast stitching, which can also be found on the dashboard and armrest. The N Line steering wheel features a perforated leather finish with red contrast stitching and sporty metallic spokes.

The N Line gearshift features sporty metal accents, a red racing line and leather inserts for better grip and even more motorsport feeling.

Sporty metal pedals enhance the dynamic driving experience. They feature a brushed metal finish with slip-resistant rubber pads for more control.
