

The New
Hyundai i10

Not big, but great.

The new i10 is the car that breaks the conventions of its class. It's bold, roomy, fun to drive, impressively equipped and with superior levels of connectivity. Proof that, to be great, you don't have to be big.

A bold new attitude.

The established shape of the i10 has been given a sporty new attitude that really catches the eye. There's a totally new sculpted front bumper that's also home to the new Cascading grille and prominent LED Daytime Running Lights. New wheels, a contrasting rear bumper insert and redesigned rear combination lamps complete the picture.

Cascading grille. The expressive shape of the new Cascading grille emphasizes the confident character of the i10.

LED Daytime Running Lights. The new round LED Daytime Running Lamps add an extra touch of sportiness to the front of the i10.

New wheels. Just one of the four available wheel designs, the sporty 14" alloy wheel contributes to the bold new attitude of the i10.

A great place to start any journey.

The i10 provides levels of connectivity that exceed expectations in this class. The new, high-resolution 7" display is your easy interface with the new navigation system, Apple CarPlay™ * and Android Auto™ *.

Shown here is the new red interior trim.

* Apple CarPlay™ is a registered trademark of Apple Inc.
Android Auto™ is a registered trademark of Google Inc.

Your truly connected car.

Advanced connectivity is just one of the qualities that position the i10 at the top of the segment. There's a new navigation system with LIVE Services, Apple CarPlay™ * links with iPhones, and Android Auto™ * connects with compatible Android smartphones. So you can always be informed, in touch and entertained.

Navigation with LIVE Services. Route guidance is augmented by live traffic information, speed camera alerts**, weather conditions and point of interest data.

Apple CarPlay™* and Android Auto™*. The 7" touch-screen provides you with the safest way to access the potential of your iPhone or compatible Android smartphone on the move.

Smartphone docking station. Safely holds your smartphone in the perfect location for navigating or playing your favourite music while charging its battery.

Bring the streets to life.

Refined engines and transmissions provide all the performance you need combined with low fuel consumption and low emissions. Choose between a 66 PS 1.0 I 3-cylinder petrol engine, an 87 PS 1.25 I 4-cylinder unit, and a 67 PS LPG version of the 1.0 I. The engines are mated to either a precise 5-speed manual transmission or a smooth-shifting 4-speed automatic. The gearshift is located conveniently high for easy operation.

5-speed manual. Precise manual gearshifts bring extra driving pleasure, especially on country roads.

4-speed automatic. The smooth-shifting automatic takes the stress out of busy city driving.

As much room as you need.

It's amazing how much space you'll find in the i10. Its trunk is one of the largest in the class, and there's room for five* to sit in comfort. With a heated steering wheel, automatic air conditioning, heated front seats and many practical storage possibilities, the i10 is one of the best-equipped cars in its class.

Trunk space. Together with class-leading cabin space, i10 boasts one of the largest trunks in its class. The luggage capacity of 252 litres expands to a voluminous 1,046 liters when the rear seats are folded down.

*the i10 Blue Drive seats four.

Engine Start/Stop button. When you're on board with the smart key in your pocket or in your bag, keyless push-button starting is enabled.

Rear power windows. Unusual in this class, the windows in the rear doors can be raised and lowered at the touch of a button.

Audio system with DAB. The new audio system also includes the crystal-clear sound quality of Digital Audio Broadcasting (DAB).

Making the city safer.

Every journey you make, no matter how short or how long, is made safer by advanced active safety technologies, including Front Collision Warning System (FCWS), Lane Departure Warning System (LDWS), Cruise Control system with speed limiter, Tyre Pressure Monitoring System (TPMS), Emergency Stop Signal (ESS), Electronic Stability Programme (ESP) and Hill-start Assist Control (HAC).

Lane Departure Warning System (LDWS). Warns you audibly and visibly of unintended departure from the traffic lane, when detected by the multi-function camera.

Front Collision Warning System (FCWS). Peace of mind on the move is provided by FCWS that provides a warning of a potential collision with the vehicle in front.
