

The all-new
BAYON

Ready for new heights.

Time to see things from a new perspective. The all-new BAYON – a small-on-the-outside, big-on-the-inside crossover SUV that is designed to make a lasting impression. Stylish and sleek, it elegantly combines Hyundai's award-winning SUV heritage with a visually stunning interpretation of our new Sensuous Sportiness design language. Packed with loads of smart tech like best-in-class safety and connectivity features, it also delivers intelligent efficiency with a range of innovative powertrains that can be equipped with a 48V mild hybrid system. Compact and easy to handle, you'll love the feeling of freedom you get from the higher seating position and the great all-round visibility for more confidence and control. Which is a great way to see the world.

Stand out design.

With its sharp lines and eye-catching proportions, the all-new BAYON really stands out from the crowd. In the front, the sleek horizontal air intake band stretches across the entire front of the vehicle to create a feeling of width together with the narrow LED Daytime Running lights. Together with the arrow shaped headlamps and wide grille, they give this dynamic crossover a truly one-of-a kind look. On the side, the dynamic shoulder draws the eye into the strong graphic features and sporty wedge-shaped profile. The rear also features arrow-shaped LED combination lamps, which are connected by a thin red accent line. Positioned far out to the sides, the stylish lamps enhance the visual impression of width – while the extended rear window and elegantly shaped hatch underlines the fact that this sporty urban stand-out comes with plenty of room for you and your passengers.

Refreshingly roomy.

Hyundai designers have created a well-it, modern atmosphere inside the all-new BAYON. Inspired by shapes found in nature, the doors elegantly embrace the dashboard. The sculpture of the doors perfectly matches the instrument panel section and LED mood lighting sets a subtle, but sophisticated blue accent in the cockpit. For an even more high-tech look in the best-in-class digital cockpit, you can opt for the dual 10.25" digital cluster and centre touch screens with split-screen functionality. And when it comes to versatility, you get the best of both worlds with the all-new BAYON: the comfort and storage space of an SUV – paired with the agility and fuel efficiency of a compact crossover. Your passengers will love the great roominess and legroom – and the 411-litre capacity boot gives you plenty of space for whatever it is you want to take with you.
